01 PROBLEM

Ordering flowers in Laguna is fragmented — shops manage orders manually, customers struggle to find nearby stores with reliable delivery, and riders lack a coordinated app for pickup and proof of delivery.

02 OBJECTIVES

- ✔ Digitize multi-vendor flower ordering for Laguna customers
- ✔ Equip sellers with inventory, orders, POS & rider tools
- ✔ Enable secure GCash proof payment + OTP auth (email/SMS)
- ✔ Coordinate rider delivery tracking with photo proofs
